# Grading Scheme: Be careful if you use this feature in your course settings:

When in your course, go to the "Settings" tab and find "Grading Scheme"

> Grading Scheme: ☑ Enable course grading scheme
> view grading scheme

Make sure this "Enable course grading scheme" feature is NOT selected. If it is NOT selected, students will see a % on their grades page, they will NOT see a letter grade.

Without grading Scheme

Total		Total	
84.92%		84.92%	B
84.85%		84.85%	B
89.32%		89.32%	B+
78.79%		78.79%	C+

What you need to know:

⇒ If you have this checkbox checked in any of your courses, the grading scale defaults to Canvas' grading scale which is incorrect for Taft College.

⇒ I cannot change the default settings. It is a Canvas setting.

⇒ Canvas' Default grade schemes count a 61% as an "F"

⇒ This feature is set at the course level. I cannot set them for everyone. They are controlled in each individual course.

⇒ You CAN use this feature, you just need to edit the grading scale to match that of Taft College.

You CAN use this feature:

If you want a letter grade to display to students, select the "Enable course grading scheme" option and set up the grading scheme to match the grading scheme that Taft College uses:

A 100-90%

B 89-80%

C 79-70%

D 69-60%

F 59-0%
