WHY? Simplifying Course navigation options helps keep students focused, and in some cases, keeps them from getting confused.

Go to the course, Course "Settings" tab, and "Navigation" tab

Drag items down to hide them from students.
Read the details on each Navigation tab as you drop it down to know exactly how that content will be effected.

Drag and Drop navigation items from (Top) **Viewable** — to (Bottom) **Non-Viewable**.

Navigation Tabs: If you don't use it, **LOSE IT!**

Providing unnecessary navigational tabs for students to explore often results in higher numbers of lost and confused students.
