TAFT-Deletion of auto program.docx

Hi Eric,  
Attached are my comments related to the sub changes that you submitted. A Sub Change application is not required for the auto program deletion - however you may wish to comment on it in the SC for the Welding program as they are in the same facility.

**Subject:** rough draft of substantive change report for review

Norv,

Attached is a rough draft of a substantive change proposal for the termination of the automotive technology program at Taft College. Taft College is currently working on four substantive change proposals:

1. Termination of the Automotive Technology Program
2. New Facilities for the Welding Program
3. Correspondence Education
4. Distance Learning

I will also be submitting for feedback drafts of the Correspondence Education and Distance Learning, which are combined into one report, in the next few days and a draft of the welding program facilities within a few weeks.

Can you take a look and see if we are going in the right direction here? Any feedback is of course much appreciated.

Let me know if you have any questions.

Thanks,

Eric Bérubé  
Coordinator of Institutional Assessment, Research & Planning/Accreditation Liaison Officer  
Taft College
