Meeting Date Change

The November Curriculum and General Education Committee meeting has been cancelled due to the holiday on November 12th and the unavailability of all members to meet at another date and time. What will happen is that all submissions that would have been on November's agenda will be placed on the December 10th agenda and if more time is needed after the regularly scheduled one hour, a second meeting will be held during January in-service to continue discussion. The deadline for submissions to be in for the December CG&E meeting will be 12/3/12, if approved at Tech Review.

Course Update(s)

- o ENER 1005 Energy Data Management and Analysis

The above course update led to the discussion of splitting the 26 total hours between lecture and lab in order to allow the student to "earn" credit for the lab component while simultaneously still earning the 1 unit allotted. The committee agreed to submit the course update to the December 10th Curriculum and General Education Committee meeting if this recommendation takes place. If not, the course will be tabled until the next Tech Review for further discussion.

Course Inactivation(s)
