

Help! Quest Online Readiness Assessment

[Back to Fac. Toolbox](#)

Starting Spring 2019, we will introduce an Online Readiness Assessment tool to all DE students. Students are **not required** to take the assessment. To encourage participation, we are raffling off various prizes to students.

Please help us encourage all DE students to take this assessment. We will use the data to offer additional support to students that fall in the “Low” levels of the readiness range.

You do not have to require students to take this assessment; however, if you'd like to help us out, here are some ways you could encourage your students to participate:

- ◆ **Set the assessment as a week 1 assignment.** Students can submit a summary of what they learned from their assessment results.
- ◆ Offer students a couple points of **extra credit** for participation

Any support is appreciated!
