New Resource for Distance Education (DE) Students

SU 19 Quest for Online Success
SU 19 Quest
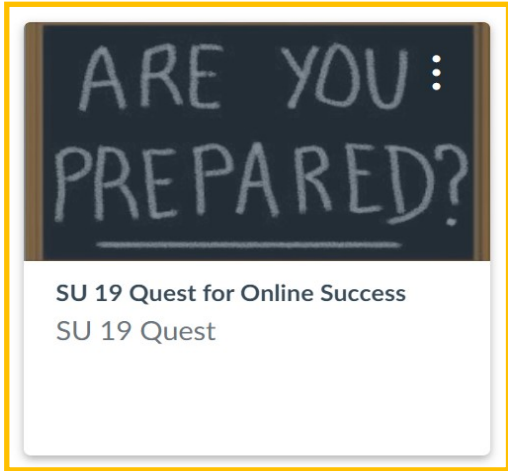

Hello Students!

Welcome to Taft College Distance Education. We have a **new resource** available to all online students.

New Resource:

Quest for Online Success– This is a resource, NOT a mandatory course. We have made the resource available to you through Canvas for your convenience.

Quest for Online Success Resource Course:

This course resource will help you assess your strengths and weaknesses in online learning. Do not worry, we all have them. Only when you know what they are, can you properly plan to succeed in your courses.

In this course, you will find helpful information and an assessment link. Please complete the Online Readiness Assessment. It will give you an in depth analysis of your learning style, typing speed, and much more.

The modules will walk you through what to expect as an online learner.

Modules 1-4 are designed primarily for students:

- new to online learning
- who have previously not done well in an online course
- who are interested in learning how to be a better online student

Modules 4-9 are designed primarily for experienced online learners and all learners looking for resources to enhance college success.

For students who have already completed the Quest Workshop in previous terms, please feel free to use these resources for review.

Students New to Online Learning	Experienced Online Learners
