

# vt Using VoiceThread

VoiceThread is a new tool that your teachers may utilize in your online classes. This will allow your teachers and fellow classmates to all interact, via videos, on **your own time**. No more logging into Zoom to see or talk directly to your teacher. No more text discussions to introduce yourself.

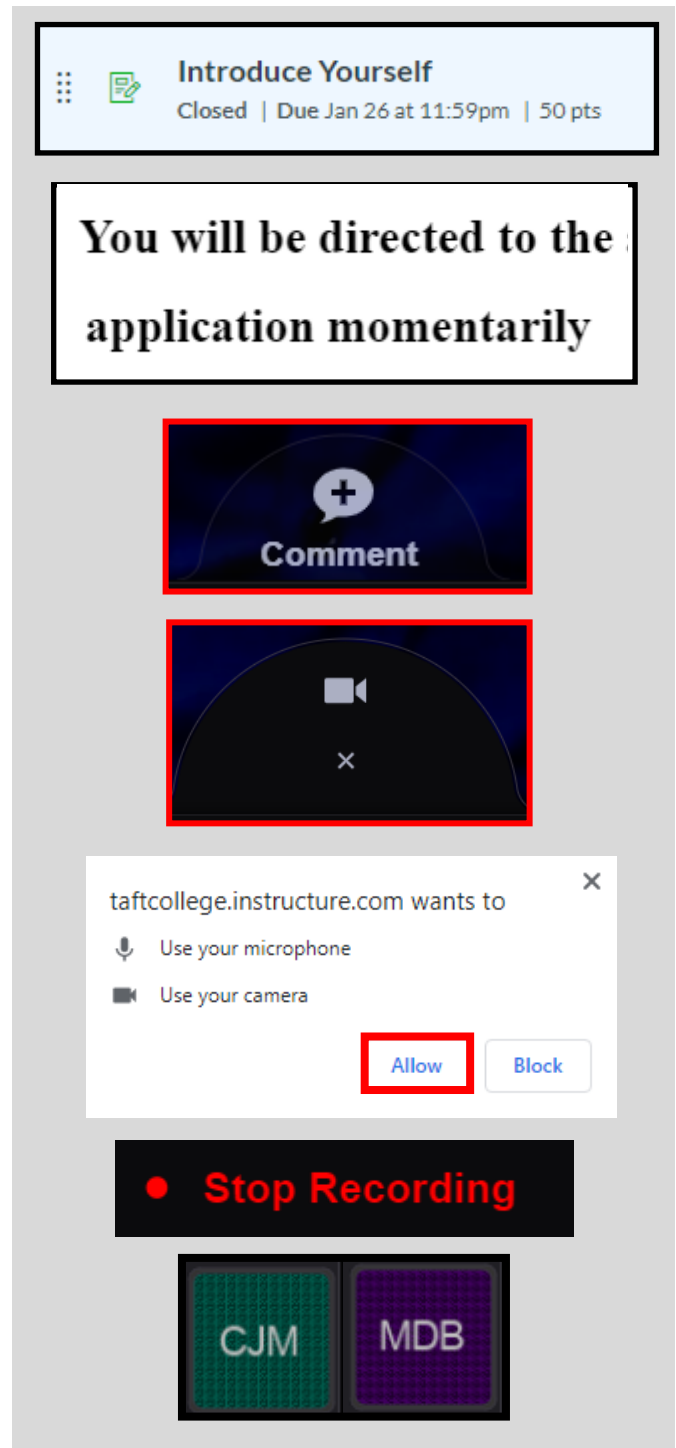

Under Assignments or Modules your teacher may have VoiceThread Assignments due.

1. You will first see a box stating “**You will be directed to the application momentarily**” wait for this to load. It may take a few minutes.
2. A video should appear. Watch your teachers video for more details on the assignment. Then click the **Comment** box at the **Bottom Center**.
3. Then click on the **Video Icon**.

You must **allow access** to your Microphone and Camera to continue. (Picture from Chrome)

4. A countdown will occur to allow you to record. Once done click **Stop Recording**.

That’s it! It will automatically start uploading for your fellow classmates to view. You can also watch theirs by click their icon on the left.

If you need any help with this please call Distance Education and we will gladly help!
