

# Matching

Back to New  
Quizzes  
Questions

This will require students to choose from a drop-down list to Match the Question with the correct Answer.

1. **Question Titles** do not display to students. Use the **Question Stem** for any instructions or information.
2. Click into the **Question** and **Answer** to enter your pairs. To add more pairs click **Question/Answer Pair**.
3. You can also add in answers that do not belong to any of the Questions by adding a **DistraCTOR**.
4. Under options you can also **Shuffle Questions**, add an on-screen **Calculator**, **Align to Outcomes**, and add this question to your **Bank**.
5. You can also add **Student Feedback** for Correct Answers, Incorrect Answers, or General Feedback.

A screenshot of a software interface for creating a matching question. At the top, there is a tab labeled '1 Matching' and a text input field for 'Question Title'. Below this is a text area for 'Add Question Stem...'. The main area contains four rows, each with a 'Question' input field on the left and an 'Answer' input field on the right, connected by a horizontal line. Each row has a trash icon to its right. Below these rows is a '+ Question/Answer Pair' button. Underneath is an 'Additional Distractors' section with a '+ Distractor' button. Below that is a 'Options' section with a dropdown arrow and two checkboxes: 'Show on-screen calculator' and 'Shuffle questions'. At the bottom of the options section are two expandable sections: '> Align to Outcomes (0)' and '> Item Banking'. At the very bottom of the interface is a footer with a '1' in a box, a points icon, a 'Points' label, a trash icon, a 'Cancel' button, and a 'Done' button. A blue speech bubble icon is overlaid on the bottom right of the screenshot.
