

# Multiple Answer/Multiple Choice

Back to New  
Quizzes  
Questions

This will require students to choose the answer(s) that is correct. Partial credit can be calculated for multiple answers.

1. **Question Titles** do not display to students. Use the **Question Stem** for any instructions or information.
2. Type in the different answers you like. The answers with the Check Box clicked will be the correct answers. If you selected Multiple Choice you will only be able to select one.
3. If you wish to offer **Partial Credit** for Multiple Answers it will also penalize students for incorrect answers.
4. Under options you can also **Shuffle Choices**, add an on-screen **Calculator**, Align to **Outcomes**, and add this question to your **Bank**.
5. You can also add **Student Feedback** for Correct Answers, Incorrect Answers, or General Feedback.

A screenshot of a digital question editor interface. At the top, it shows a tab labeled '1 Multiple Answer' and a text input field for 'Question Title'. Below this is a text area for 'Add Question Stem...'. There are four answer options, each with a checkbox and a text input field containing 'Type an answer'. The first two checkboxes are checked. Below the answer options is a '+ Answer' button. Underneath is an 'Options' section with checkboxes for 'Show on-screen calculator' and 'Shuffle Choices'. A 'Grading' section has radio buttons for 'Partial credit with penalty' (selected) and 'Exact Match'. At the bottom, there are expandable sections for 'Align to Outcomes (0)' and 'Item Banking'. The interface includes a 'Cancel' button and a blue 'Done' button. A small icon of two speech bubbles is visible in the bottom right corner of the editor area.
