# Stimulus

Stimulus content gives students a reference or other items to read before answering the questions.

1. The Title will help you match it with the correct questions if you chose to Save it to the Bank.

2. Add Instructions. This could be as simple as "Read before answering the corresponding questions"

3. Enter any information you want to provide to the students in the Content Area. You can also embed a picture or video clip as well. (If you add a video please adjust your quiz time accordingly)

4. Add a Source URL for yourself. If you are adding a Video this would help to verify the video is still up and working. URLs are not visible to students.

5. Click Add to Bank to add the Stimulus to your Question Banks.

6. Click Add Stimulus to Save this Stimulus.
