Get Started with New Quizzes within Canvas
Start Migrating your Classic Quizzes to the New Quiz Format

Prepare for the transition from Classic Quiz-engine to the New Quiz-engine within Canvas. New Quizzes is a quiz engine that integrates with Canvas as an LTI tool and replaces the classic quizzes functionality currently existing in Canvas. You will not lose any previously created quizzes built within Classic because with a few clicks you can migrate Classic to New.

Migrate Classic Quiz to New in Canvas

1. Start off in the **"Quizzes" tab** in the shell/course you plan to work on. Consider creating a list of quizzes you are planning on migrating. It will be helpful to check off the migrated quizzes as you work through the load.

2. In the Quizzes tab, **locate the ellipsis dots** for each quiz to the right hand side of the quiz title.

3. **Click** on the ellipsis dots.

4. In the drop down list, **find and select "Migrate."**

After Migrating a Quiz

Depending on the size of the video, quality of the device, and your Wi-Fi connection - it should render quickly.

Notice at the bottom of your grouped quizzes, there will be the rendered video/s saved there. Once you refresh your web browser or leave and re-enter the quizzes area your quiz list will automatically reorganize. (by default)

Identify your Classic and New Quizzes by the **rocket-ship** Logo at the left hand side of the quiz title.

- **Classic:** the dark outlined with light center color
- **New:** the center will be all dark

In the Assignments tab, you will see the group of all the migrated quizzes automatically in their own group.

FAQ's:

» **Are there other options besides migrating quizzes individually?**

-Temporarily, no there aren't. However, Instructure is working on the alternative options for quiz banks and mass quiz conversation. That release has not be made yet, but soon to come. :)
