

Pope Tech Introduction

Pope Tech with Canvas, assist with ensuring digital accessibility for people with disabilities. Pope Tech is continuously improving the user experience for everyone, and applying the relevant best practice and accessibility standards.

(Shared from Pope Tech Resource page)

The common goal for Pope Tech and digital content creators:

The [Web Content Accessibility Guidelines \(WCAG\)](#) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA.

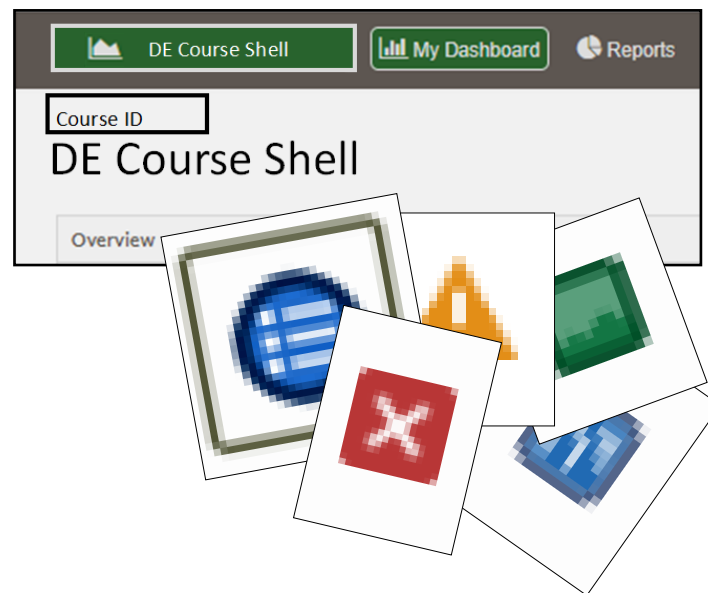

Efforts to support accessibility

- Use Pope Tech when creating and editing digital content for your online students and consumers in Canvas.
- As part of the accessibility efforts run semesterly, monthly, or weekly scans with Pope Tech on all of your Canvas courses, pages, and resources.
- All videos should include captioning. Consider reviewing your videos to be reviewed annually. Talk with your DE staff for captioning tools.

Pope Tech Key Features:

- Enterprise Dashboard
- Unlimited Scanning
- View overall dashboard or drill down detailed information
- Easily distinguish common errors and alerts
- Monitor Alerts and Errors

Browsers & Assistive technology

Pope Tech in Canvas is designed to be compatible with:

- [Screen Readers](#): Most common
- [Web-Browsers](#): Google Chrome—Web

Warning Canvas experiences errors with: Internet Explorer, Firefox, Safari, & Microsoft Edge
