First Presentation – Tentative Agreement with the Taft College Faculty Association (TCFA) regarding the revision of Article 6.9, Campus Security Video Monitoring and Surveillance Technology, to the Faculty Collective Bargaining Agreement

Background:

As part of the continuing dialogue through the TCFCBC, the parties have reached a consensus regarding the language and intent of the security camera policy. The parties have agreed to revise Article 6.9, Campus Security Video Monitoring and Surveillance Technology, to the current collective bargaining agreement to read as follows:

6.9 Security Video Monitoring and Surveillance Technology: Video monitoring will not be used to view or record workstations, including private offices, desks or cubicles, classrooms, or rooms where students, staff and/or faculty commonly work, study, or hold discussions, living areas, or other common-use areas where a reasonable expectation of privacy exists.

Video and access control security records will not be used for purposes related to the evaluation of employee job performance, nor will they be used as a means to track employee attendance and/or as a timekeeping record. However, the District may use such records in support of disciplinary proceedings against faculty, staff, or student(s), in a civil suit against person(s) whose activities are shown on the recording and are the basis for the suit. The Director of Campus Security or an authorized District administrator shall only perform review of video records, with a good faith reason for review.

Security cameras will not be monitored in real time with the exception of those located in the Campus Safety and Security office; as an immediate response to the report of criminal activity on campus; suspicious behavior or in the course of an ongoing investigation of criminal activity. Cameras shall only be reviewed and monitored by the Director of Campus Security or an authorized District administrator with a good faith reason for the review, with the following exceptions:

1. Bookstore public retail areas may be monitored in real time by Bookstore employees;
2. Cougar Café food service areas may be monitored in real time by Café employees;

3. Child Development Center classrooms may be observed in real time as an instructional activity in alignment with Early Childhood Education curriculum under the direction and supervision of appropriate faculty and/or Child Development Center staff.

Information obtained in violation of the District's campus security camera policy may not be used in a disciplinary proceeding (with the exception of alleged criminal activity) against a faculty member. It is not the intent of the policy to use security cameras for the monitoring of faculty or employees for disciplinary purposes, performance evaluations, or corrective action.

The District will provide a 10-day written notice to the President and Vice-President of the Faculty Association of proposed installation of new cameras. The Faculty Association will notify the Administration within 10 days if they believe the new cameras are not in compliance with the campus security camera policy prior to the cameras being activated.

The District will provide a 10-day written notice to the President and Vice-President of the Faculty Association of any proposed changes to the campus security camera policy or if any new security or surveillance technology is to be installed or activated by the District.
